

# Litepanels® Micro

*The perfect camera  
light—Fully dimmable  
Powered by four AA batteries  
Use with video & still cameras*

## Meet the New Litepanels® Micro

>>> The perfect camera light—fully dimmable & powered by four AA batteries

Since the dawn of filmmaking, Hollywood cinematographers have understood that great lighting is the single most important factor in producing high quality imagery. Now in the era of HD resolution, it's even more critical to remove unflattering shadows and bring your subject's eyes and face to life. That's why the new Litepanels Micro is the must-have tool for today's HD images.

# See the Micro

>>> Litepanels' lightweight, yet powerful new camera light was created in response to the overwhelming popularity of the company's Technical Emmy® Award-winning MiniPlus model. The new Micro harnesses Litepanels' proprietary LED technology in an ultra-lightweight, extremely compact package. Users of DV camcorders & SLR cameras can now enjoy a similar quality of luminous, soft, directional lighting with the same warmth and great color quality that has quickly made Litepanels an integral part of television, broadcast news & motion picture productions worldwide.

## > Highly Controllable

The Litepanels Micro features a conveniently located integrated dimmer dial at the top of its housing to instantly dim the light anywhere from 100% to 0, with minimal color shift. Output is flicker free and heat free and remains consistent. For additional control, a flip-down filterholder allows for work with the included color/diffusion gels.

## > Not Power Hungry

Litepanels Micro produces 1.5 hours\* of continuous output from just four AA batteries (it's three times more efficient than a conventional tungsten camera light). What's more, it's virtually heat free so it's easy to handle. And the system can be run off of either standard or rechargeable batteries. Power can be supplied optionally through a convenient 5-12V input jack located on the back of the unit.

\*7+ hours runtime using Energizer®e2 Lithium AA batteries

## > Elegant Design

The compact and low-profile Litepanels Micro head is ideally suited for mounting on a mini DV or SLR camera. Measuring just 3.3" W x 3.3" H x 1.5" D (83.8mm x 83.8mm x 38.1mm), the head weighs less than 4 ounces (110g). With its black matte finish and sleek design, the fixture is an unobtrusive addition to any camera.

## > Mounting Options

The Litepanels Micro housing comes outfitted with an integrated camera shoe featuring an adjustable tilt mechanism. To allow for multiple mounting configurations, it may also be mounted on the optional base plate for off-camera usage, or on an extension arm.

> **Lighting Tip:** Use the included 1/4 warming filter on the light to give your subject a more pleasing skin tone.

The Micro's integrated dimmer lets you dial up just the right amount of light for any situation.

## ADVANTAGES FOR VIDEO & STILL

- > Continuous output
- > Heat free LED technology
- > Fills in shadows
- > Brings eyes to life
- > Vastly improves skin tone
- > Dimmable 100% to 0 (min. color shift)
- > Produces bright, HD-friendly soft light
- > Runs cool
- > Flicker free light output
- > Runs 1.5 hours on four AA batteries (Alkaline), 7-8 hours on E2 Lithium AA batteries
- > Never change a hot lamp again (50,000 hr LED life)
- > All-in-one camera light w/no external cables
- > Uses standard or rechargeable AA batteries
- > Lightweight and compact

## SPECIAL BENEFITS FOR STILL CAMERAS

- > Eliminates hard-to-use flash
- > Eliminates Red Eye
- > Preview shot through viewfinder in real time—what you see is what you get!
- > Aids focusing in low light
- > Excellent for close-ups
- > Picture perfect control
- > Adds life and sparkle to eyes

## SPECIFICATIONS

- > Size: 3.3" W x 3.3" H x 1.5" D (83.8mm x 83.8mm x 38.1mm)
- > Weight: Under 4 oz (110g)
- > Power Draw: 3 watts
- > Flip-down Filterholder
- > Daylight Output (cool white - 5600°K)
- > Filters Included:
  - > Tungsten conversion (warm white - 3200°K)
  - > 1/4 Warming
  - > Diffusion

Specifications subject to change without notice. Made in USA.
